Wear Protection

Wear Protection for New Audi Vehicles

Audi After Care®
Wear Protection

Keep your Audi performing like an Audi

The superior performance of your new Audi requires precision moving parts, thousands of which must work together flawlessly to deliver performance, safety and comfort. Due to the nature of these working parts, normal wear and tear is to be expected.

Audi After Care Wear Protection covers parts and labour for typical wear and tear components. This means, when parts such as brake pads, belts and windshield wiper blades wear out, they will be replaced at no additional cost to you.

No one is better equipped to maintain your Audi. Take comfort in knowing that services are performed by Audi-Certified Technicians, using state-of-the-art diagnostic tools and Audi approved parts to help maintain your vehicle's original performance and integrity.
